Subject: FW: Potential COI -- Exxon-Mobil Pipeline

Nic and/or Chris,

Please see the attached notification of a potential COI.

Please review and provide your recommendation to both CO and PO.

In the past, if your review deems the conflict to be great, Weston will need to de-mob and Dynamac (if no conflict) will continue with the ER.

Thanks, Linda

Subject: Potential COI -- Exxon-Mobil Pipeline

Please find attached a potential COI notification in regards to the Exxon-Mobil pipeline release that START responded to on Friday evening, 29 March. START has four people on-site providing support to EPA, and will continue to perform assigned tasks until we hear differently.

Should you need any additional information, please don't hesitate to contact me.
